PROFESSIONAL SUMMARY

Product & Program Leader with 8+ years delivering data-driven, platform-led initiatives across B2B SaaS and enterprise environments. Experienced in managing multi-stakeholder programs involving data platforms, messaging workflows, and access-controlled systems. Strong execution rigor, governance discipline, and ability to translate technical complexity into predictable delivery outcomes.

DATA, PLATFORM & GOVERNANCE EXPERTISE

- Data & Messaging Platforms: Event pipelines, session state management, data integrity controls, **secure data access**
- Program Governance: Risk, dependency and issue tracking, **executive-level documentation**, steering committee readiness
- **Security & Access Foundations**: RBAC, authorization policies, secure API design, auditability
- Agile Delivery: Sprint planning, cross-functional coordination, delivery tracking across distributed teams

PROFESSIONAL EXPERIENCE

Product Lead – Pync (Acquired)

Apr 2025 – Present | Bengaluru, India

B2C Marketplace operating at scale with operational, partner, and pricing data workflows.

- Led end-to-end delivery of internal data and access platforms supporting multi-role operational teams, ensuring controlled access, auditability, and adherence to governance standards
- Coordinated delivery across engineering, operations, and business stakeholders, tracking **risks, dependencies, and milestones** across concurrent initiatives
- Established delivery rituals and documentation standards to balance rapid releases with system reliability, **reducing downstream operational issues**
- Partnered with engineering leadership to manage delivery trade-offs and cross-team dependencies
- Built **self-serve configuration and pricing systems** for operations teams, enabling rapid subscription tier management without engineering involvement and reducing deployment cycles by 60%
- Scaled platform to 10,000 DAU in 6 months, **driving 125% conversion improvement and ₹40 lakh in monthly revenue**

Product Strategy & Partnership – Shopflo / Flo Labs

Nov 2023 – Mar 2025 | Bengaluru, India

B2B SaaS: Checkout optimization platform helping e-commerce brands boost conversions with one-click payments.

- Led cross-functional delivery of **identity resolution and messaging workflows** enabling accurate data attribution and analytics across 1000+ merchants
- Managed integration programs with **third-party payment and platform partners**, ensuring secure data exchange and clear ownership boundaries
- Acted as primary coordination point across engineering, partnerships, and GTM teams, driving alignment on timelines and risk mitigation
- Produced executive-level status updates covering **delivery progress, dependencies, and technical trade-offs**
- Scaled platform from 10 to 500+ customers in 12 months, **contributing to 52% ARR growth (\$1.5M)**

Program Manager | FrontRow

Oct 2021 – Oct 2022 | Bengaluru, India

B2C Edtech: platform for live celebrity and expert-led creative classes.

- Managed cross-functional delivery of platform initiatives supporting 100,000+ users
- Coordinated product, engineering, and operations teams to improve engagement and retention outcomes
- Established delivery tracking and issue-resolution mechanisms across teams

Sales & Analytics – ExxonMobil

Jul 2017 – Aug 2021 | Mumbai, India

B2B Energy: Global oil and gas company providing fuel, lubricants, and chemical solutions.

- Managed a \$40M B2B portfolio across a global, matrixed organization
- Collaborated with international stakeholders while adhering to governance and reporting standards
- Built Salesforce-based forecasting and analytics dashboards to improve pipeline visibility and executive decision-making

EDUCATION

B.E. (Hons), Manufacturing Engineering – BITS Pilani

TECHNOLOGY STACK & TOOLS

- Data & Platforms: Event-based systems | Data pipelines | Secure data access
- Delivery & Governance: Agile frameworks | Risk & dependency tracking | Executive reporting
- Analytics & CRM: Salesforce | HubSpot | Mixpanel
- Infrastructure & Integration: MongoDB | Firebase | LeadSquared CRM | WhatsApp Business API

CORE SKILLS

Program & Delivery Leadership: Global Delivery | Stakeholder Management | Governance | Risk Management

Enterprise Platforms & Data: Data Platforms | Messaging Systems | Secure Access Models | API Integrations
