PROFESSIONAL SUMMARY

Product Leader with 7+ years building AI-powered, data-intensive B2B SaaS products and knowledge platforms. Expert in cross-platform integrations and enterprise product scaling. Scaled marketplace to 10,000 DAU using behavioral analytics and personalized recommendations. Proven track record delivering 0-to-1 products and scaling platforms from 0 to 1000+ B2B customers through cross-functional agile delivery.

ENTERPRISE KNOWLEDGE & AI-RELEVANT EXPERIENCE

- Architected semantic event taxonomy and behavioral tracking infrastructure processing 500M+ monthly interaction events with real-time analysis—*directly applicable to enterprise knowledge discovery, relevance ranking, and personalization systems.*
- Led API-first integration roadmaps spanning payment gateways, CRM platforms (Salesforce, HubSpot), and marketing tools—*experience directly translatable to collaboration tool ecosystems (Slack, Teams, Zoom) with webhook architecture and performance SLAs.*
- Leveraged AI/ML tools (Claude, ChatGPT, Cursor, Perplexity) to accelerate development cycles by 60%, with deep understanding of LLM capabilities, limitations, and integration patterns in production environments.
- Designed scalable infrastructure supporting 99.9% uptime with data quality monitoring and anomaly detection reducing operational escalations by 30-40%, ensuring enterprise-grade reliability.

PROFESSIONAL EXPERIENCE

Product Lead – Pync (Lifestyle Services Platform)

Apr 2024 – Present | Bangalore, India

B2C Marketplace: Home services platform connecting customers with professional service providers through on-demand and subscription access.

Product Leadership & Business Impact

- Scaled platform from 0 to 10,000 DAU in 6 months through rapid experimentation and AI-enabled development (60% faster cycles), driving 125% conversion improvement and significant contribution margin gains.
- Led cross-functional collaboration across engineering, operations, and design teams from concept to launch, driving agile development with daily standups, weekly sprint planning, and retrospectives on a 3-4-day release cadence, reducing time-to-market by 70% while maintaining consistent velocity.
- Designed subscription billing infrastructure with recurring payments, proration logic, and automated payout workflows managing ₹40L+ monthly GMV with transaction monitoring and reconciliation.
- Monitored unit economics across customer segments, optimizing CAC/LTV ratios through bundling, upselling, and subscription features.

Product Strategy & Growth – Shopflo / Flo Labs

Nov 2023 – Mar 2025 | Bengaluru, India

B2B SaaS: Checkout optimization platform helping e-commerce brands boost conversions with intelligent payment experiences.

Enterprise SaaS Scaling & Customer Intelligence

- Gathered merchant pain points through user interviews and usability studies, then analyzed behavior patterns using funnel analysis and session recordings—driving 52% improvement in conversion rates through data-driven optimization.

- Designed scalable measurement pipelines processing 500M+ monthly events, defining semantic event taxonomy, data validation rules, and pipeline architecture supporting 50x transaction growth—*experience applicable to content quality and relevance monitoring in knowledge systems.*
- Created real-time dashboards enabling merchants to track performance metrics and optimize conversion funnels.
- Coordinated cross-functional roadmap with stakeholders spanning payment gateways, CRM platforms, and marketing tools, aligning engineering, sales, and customer success teams with business objectives.

Program Manager | FrontRow

Oct 2021 – Oct 2022 | Bangalore, India

- Built community engagement platform for 100K+ users achieving 20% renewal rate lift and generating ₹51L revenue through personalized content recommendations and cohort-based experiences.

Sales & Analytics – ExxonMobil

Jul 2017 – Aug 2021 | Mumbai, India

Enterprise Account Management & Data-Driven Strategy

- Managed \$40M B2B account portfolio using Salesforce CRM, building custom forecasting dashboards and data-driven territory planning that enhanced forecast accuracy by 15%.
- Led quarterly business reviews and retrospectives with global stakeholders, demonstrating commercial acumen and cross-functional alignment.
- Closed \$7.8M in new business through 4 rebate contracts in the volatile 2021 market, demonstrating bias for action.

EDUCATION

B.E. (Hons), Manufacturing Engineering – BITS Pilani (2013-2017)

TECHNICAL SKILLS & PRODUCT DOMAINS

- **Enterprise Knowledge & AI Systems:** Semantic search principles, content discovery, knowledge graph concepts, personalization algorithms, ranking optimization, behavioral analytics, LLM integration patterns
- **AI Product Management:** AI-powered workflows (Claude, ChatGPT, Cursor, Perplexity), prompt engineering, recommendation engines
- **Platform & Integration Architecture:** API-first development, webhook architecture, OAuth/SSO, multi-tenant SaaS, cross-platform data synchronization, event-driven systems, real-time data pipelines
- **Analytics & Instrumentation:** Event taxonomy design, funnel optimization, cohort analysis, attribution modeling, data quality monitoring, anomaly detection, product analytics (Mixpanel, AppsFlyer)
- **Tools & Technologies:** JIRA, Confluence, Mixpanel, AppsFlyer, MongoDB, Firebase, SQL, Salesforce, HubSpot, Agile/Scrum, sprint planning, retrospectives
