PROFESSIONAL SUMMARY

Product Leader with 7+ years building consumer-facing platforms and marketing measurement infrastructure. Expert in conversion optimization, consumer experience, and cross-platform integrations, with proven success scaling a marketplace to 10,000 DAU through analytical problem-solving, data-driven personalization and agile execution in ambiguous environments.

DIGITAL MARKETING & CONSUMER EXPERIENCE RELEVANCE

- **Consumer Journey Optimization & Conversion Analytics:** Architected measurement infrastructure processing 500M+ monthly interaction events with real-time analytics, achieving 35% checkout friction reduction across 1000+ e-commerce merchants through data-driven funnel optimization and behavioral insights
- **Marketing Technology Integration & Data Infrastructure:** Led cross-platform integration roadmap spanning payment systems, CRM platforms (Salesforce, HubSpot), and CDPs (MoEngage, Sortment). Built scalable event-driven data pipelines supporting attribution analysis, product analytics, and campaign performance measurement with 40% reduction in operational escalations
- **Consumer Platform Scaling & Personalization:** Expert in B2C marketplace growth through semantic event taxonomy for tracking consumer interactions across touchpoints, enabling closed-loop attribution and personalized content delivery at scale
- **Agile Product Delivery & Stakeholder Management:** Led cross-functional teams across engineering, design, marketing, and operations, reducing time-to-market by 70%. Facilitated sprint planning, daily standups, and retrospectives while managing parallel workstreams and maintaining stakeholder alignment across business and technical teams

PROFESSIONAL EXPERIENCE

Product Lead – Pync (B2C Lifestyle Services Marketplace)

Apr 2024 – Present | Bangalore, India

- Scaled consumer platform from 0 to 10,000 DAU in 6 months through rapid experimentation, personalized recommendations, and AI-enabled development achieving 125% conversion improvement and significant contribution margin gains
- Architected event tracking framework defining semantic taxonomy supporting product analytics (Mixpanel), attribution (AppsFlyer), and campaign measurement—enabling personalized content delivery and engagement optimization with 99.9% uptime
- Designed cross-platform attribution pipeline connecting paid media campaigns with in-app behavioral data, enabling closed-loop marketing measurement and ROI analysis across consumer acquisition touchpoints
- Led agile product development across engineering, design, and operations with 3-4 day release cadence, translating product roadmap into user stories and epics while facilitating sprint planning and tailoring communications to technical and business stakeholders
- Provided design leadership collaborating with UX team on consumer journey mapping and interface optimization, conducting user research and usability testing across multiple product iterations to enhance user engagement and retention
- Built subscription billing infrastructure with recurring payment logic and automated lifecycle communications managing ₹40L+ monthly GMV, optimizing CAC/LTV ratios through bundling and upselling strategies

Product Strategy & Growth – Shopflo/Flo Labs

Nov 2023 – Mar 2025 | Bengaluru, India

- Drove 52% merchant conversion rate improvement through funnel analysis, session recordings, and data-driven checkout optimization across consumer payment journeys in high-volume e-commerce environments

- Designed scalable measurement pipelines processing 500M+ monthly checkout events with real-time validation, defining event taxonomy and data quality rules—built traffic quality monitoring reducing merchant support escalations by 40%
- Led cross-platform integration roadmap with payment gateways (Razorpay, PayU, PhonePe), CRM platforms, and marketing tools, defining API specifications and performance SLAs achieving 99.9% transaction success
- Provided design leadership through user interviews and usability studies, partnering with UX researchers and data scientists to translate qualitative feedback into prioritized product requirements
- Created merchant dashboards tracking conversion metrics, payment performance, and consumer behavior patterns, enabling data-driven optimization and predictive modeling for conversion improvement

Program Manager | FrontRow

Oct 2021 – Oct 2022 | Bangalore, India

- Built consumer engagement platform for 100K+ users achieving 20% renewal rate lift through personalized content recommendations, cohort-based experiences, and community features generating ₹51L revenue

Sales & Analytics – ExxonMobil

Jul 2017 – Aug 2021 | Mumbai, India

- Managed \$40M B2B account portfolio using Salesforce CRM, building custom forecasting dashboards and data-driven territory planning enhancing pipeline visibility and forecast accuracy by 15%
- Led quarterly business reviews with global leadership (Brussels, Houston), synthesizing data insights and tailoring communications to technical and executive audiences to refine commercial strategies under ambiguous market conditions
- Closed \$7.8M in new business through 4 rebate contracts in volatile 2021 market, demonstrating bias for action and results-oriented execution

EDUCATION

B.E. (Hons), Manufacturing Engineering – BITS Pilani (2013-2017)

TECHNICAL SKILLS & PRODUCT DOMAINS

- **Digital Marketing & Consumer Platforms:** Consumer journey mapping, conversion funnel optimization, behavioral analytics, personalization strategies, A/B testing, cohort analysis, marketing measurement infrastructure, attribution modeling, campaign performance tracking, consumer segmentation, subscription products, lifecycle marketing, retention optimization
- **Marketing Technology & Integration:** REST API integrations (payment gateways, CRMs, marketing tools), webhook architecture, event-driven systems, cross-platform data synchronization, real-time data pipelines, analytics instrumentation (Mixpanel, AppsFlyer), data quality monitoring, anomaly detection
- **Product Management & Agile:** Agile/Scrum, sprint planning, backlog prioritization, retrospectives, stakeholder management, cross-functional collaboration, user research, usability testing, design thinking, product analytics
- **Cloud & Architecture:** AWS cloud infrastructure with scalable architecture (99.9% uptime, 10K+ DAU), microservices patterns, domain event architecture, real-time data processing, event streaming, semantic taxonomy design
- **Tools & Technologies:** JIRA, Confluence, Figma, SQL, MongoDB, Firebase, Mixpanel, AppsFlyer, Google Analytics, Salesforce, HubSpot, Gen AI tools (Claude, ChatGPT, Cursor—60% dev cycle acceleration)
